# SUBJECT INDEX VOLUME XXII

(ab.) = Abstracts; (CPC) = Clinico-pathologic Conference; (E.) = Editorial

Acetazolamide and meralluride in chronic nephritis, failure of renal response to (ab.), 968
Acetic acid analogues of thyroxin and triiodothyronine, metabolic effects of (ab.), 969
Acid mucopolysaccarides of bovine aorta (ab.), 961
Acidosis, diabetic and diarrheal, plasma carbon dioxide tension during recovery from (ab.), 978
Adrenal glands, hydrocortisone output of (ab.), 967
Aldolase, serum, activity in neuromuscular disorders, 414
Alkalosis, respiratory, as result 2,4-dinitrophenol therapy (ab.), 977
Alveolar-capillary
  block syndrome, diffusion capacity of lungs in, 51
  diffusion, impairment of, in chronic disseminated histiocytosis X, 834
Androgen and estrogen administration and changes in olfactory acuity in hypogonadal subjects (ab.), 973
Androgens, oral, androgenicity of (ab.), 966
Anemia
  acquired hemolytic, chronic lymphocytic leukemia and dysproteinemia, 504
  hypochromic, with hyperferricemia, responding to oral crude liver extract, 99
  sickle cell, effects of $O_2$ breathing in (ab.), 966
Anemias, congenital hemolytic, inborn errors of metabolism in red cells, 724
Antibiotic and steroid therapy associated with fungus infections, 872
Aorta, bovine, acid mucopolysaccharides of (ab.), 961
Aortic
  grafts, experimental nylon, late results of (ab.), 961
  insufficiency, effect of heart rate controlled by external stimulator, 498
  regurgitation with rheumatoid aortitis, 580
Arthritis, rheumatoid, unusual manifestation of, 580
Aspiration biopsy of parietal pleura, 883
Atrial septal defect, electrocardiographic findings in, 784
Atrial septum, diagnosis of ostium primum defects of, 593
Atropine and posture, factors controlling (ab.), 976

Beta lipoproteins in serums of Americans, 605
Biopsy, aspiration, of parietal pleura, 883
Blood
  carotene in steatorrhea and malabsorptive syndromes, 373
  oxygen saturation, technic for photographic measurement of (ab.), 967
  $PCO_2$ and cardiac toxicity of potassium (ab.), 978
Boeck's sarcoid and non-meningitic cryptococcosis, 986
Bone
  disease, survey of, 469
  structure and metabolic functions of, 123
Bone
  marrow, human, in vitro iron utilization by (ab.), 975
Brain tumor, simulated by pulmonary emphysema, 524
Bronchiectasis associated with pulmonary tuberculosis, 894
Brucellosis in Egypt, 915

Calcium and phosphorus metabolism, 275
Carbon dioxide, plasma, during recovery from diabetic and diarrheal acidosis (ab.), 978
Cardiac
  and pulmonary function in chronic pulmonary emphysema and secondary polycythemia, 74
  and pulmonary tissue, distribution of I-131-labelled fat in (ab.), 964
  disease, pulmonary compliance in, 516
  failure and myxedema (CPC), 653
  function, valsalva maneuver as test of, 197
  output, factors controlling (ab.), 976
  output in Paget's disease before and after treatment with cortisone, 252
  toxicity of potassium and blood $PCO_2$ (ab.), 978
Cardiovascular
  function in hypothermic anesthetized man (ab.), 973
  shunts, 1
Carotene, blood, in steatorrhea and malabsorptive syndromes, 373
Cecum, gangrene of, and acute porphyria with volvulus, 980
Chest, diseases of, evaluation of enzymatic therapy in, 930
Chlorothiazide, electrolyte excretion patterns due to (ab.), 965
Chlorpromazine jaundice, 351
Cholesterol
  absorption, sterol inhibitors of (ab.), 962
  and beta lipoproteins in serums of Americans, 605
  studies in myocardial infarction (ab.), 975
  synthesis, role of glycolysis in (ab.), 974
Chylopericardium, isolated ("primary"), due to anomalous communications with thoracic duct, 825
Clinico-pathologic conferences (Washington Univ.)
  dyspnea, weakness and ocular pain, 132
  myxedema and cardiac failure, 653
  pyuria, gross hematuria, convulsions and possible nephrotic syndrome, 286
  sore mouth, purpura, weight loss, hepatomegaly, peripheral neuritis and monocytosis, 485
  surgical hypophysectomy for diabetic retinopathy, 949
Clotting mechanism, interference of abnormal plasma proteins with, 381
Colitis, ulcerative, use of steroids in, 264

  synthesis, role of glycolysis in (ab.), 974
Chylopericardium, isolated ("primary"), due to anomalous communications with thoracic duct, 825
Clinico-pathologic conferences (Washington Univ.)
  dyspnea, weakness and ocular pain, 132
  myxedema and cardiac failure, 653
  pyuria, gross hematuria, convulsions and possible nephrotic syndrome, 286
  sore mouth, purpura, weight loss, hepatomegaly, peripheral neuritis and monocytosis, 485
  surgical hypophysectomy for diabetic retinopathy, 949
Clotting mechanism, interference of abnormal plasma proteins with, 381
Colitis, ulcerative, use of steroids in, 264

# Subject Index

Combined staff clinic (Columbia Univ.)
current views on pathogenesis and therapy of rheumatic fever, 422
Combined staff clinic (National Institute of Arthritis and Metabolic Diseases)
metabolic and clinical aspects of gout, 807
Coombs' test, direct, and the reticulocyte (ab.), 974
Coronary arteriovenous fistula, 213
Coronary artery
disease and alimentary lipemia in two racial groups (ab.), 976
disease, C-reactive protein determination as index of myocardial necrosis in, 90
occlusion, experimental (ab.), 977
Cor pulmonale
acute, origin of shock associated with, 163
sickle states and pulmonary infarction, 561
Cortisone
effect on cardiac output in Paget's disease, 252
in management of ulcerative colitis, 264
Creatine-phosphate, utilization of, by muscle extracts in nutritional muscular dystrophy (ab.), 963
C-reactive protein determination as index of myocardial necrosis in coronary artery disease, 90
Cretinism with goiter, sporadic or non-endemic familial, 712
Cryptococcus
neoformans, mycotic endocarditis due to, 674
non-meningitic and Boeck's sarcoid, 986
Cystic disease of kidneys (CPC), 286
Cystinuria, 774
Cystitis, acute hemorrhagic, associated with pleuropneumonia-like organisms, 848

Delivery, use of semi-sitting position for (ab.), 971
Diabetic
and diarrheal acidosis, plasma carbon dioxide tension during recovery from (ab.), 978
retinopathy, surgical hypophysectomy for (CPC), 949
Dialysis procedures in clinical management (E.), 511
2,4-Dinitrophenol, respiratory alkalosis due to, (ab.), 977
Dyspnea, weakness and ocular pain (CPC), 132
Dysproteinemia, acquired hemolytic anemia and chronic lymphocytic leukemia, 504

Editorials
cardiovascular shunts, 1
foreword to symposium on inborn errors of metabolism, 671
place of dialysis procedures in clinical management, 511
progress in sarcoidosis, 841
some problems of leprosy, 337
sympathetic nervous system, vascular volume and venous return in relation to cardiovascular integration, 175
Electrocardiogram in arterial septal defect, 223
Electrocardiograms, cancellation of esophageal (ab.), 970
Electrolyte
excretion patterns due to chlorothiazide (ab.), 965
studies in respiratory paralysis of poliomyelitis, 549
Emphysema, pulmonary, simulating brain tumor, 524
Emphysematous bullae, physiologic changes associated with surgical excision of, 534
Encephalitis, hemorrhagic, in chick embryos infected with influenza virus (ab.), 967
Endocardial fibroelastosis (CPC), 653
Endocarditis
acute bacterial (CPC), 132
mycotic, 654
Enzymatic therapy in diseases of chest, 930
Enzyme activity in serum and heart muscle after experimental myocardial infarction (ab.), 973
Eosinophilic granuloma, 636
Epinephrine and nor-epinephrine, cardiovascular effects in pheochromocytoma (ab.), 976
Erythrocyte, life span of, following bilateral nephrectomy (ab.), 971
Erythrocytic hypoplasia, chronic, in adults, 322
Estrogen and androgen administration, effects of, on olfactory acuity in hypogonadal subjects (ab.), 973
Ethylenediamine tetra-acetate, urinary loss of zinc produced by, 168

Fanconi syndrome, adult, 13
and multiple myeloma, 5
Fat, I-131-labeled, distribution of, in dogs (ab.), 964
Fibroelastosis, endocardial (CPC), 653
Fibrillation, ventricular, and survival as affected by selected drugs (ab.), 977
Fungus infections associated with antibiotic and steroid therapy, 872

Galactosemia, 703
Ganglionic blockade followed by pulmonary disease, 37
Gangrene of cecum, acute porphyria with volvulus and, 980
Genetic diseases of man, mechanisms in, 676
Glycolysis in cholesterol synthesis, role of (ab.), 974
Glycoproteins, serum, in myeloma, macroglobulinemia and related conditions, 24
serum lipoproteins and lipids in eunuchs and non-castrated men (ab.), 965
Goiter, sporadic or non-endemic familial, 712
Gout, metabolic and clinical aspects of, 807
Grafts, experimental nylon aortic, results of (ab.), 961
Granuloma, eosinophilic, 636

Heart
failure, congestive, hydrothorax in, 83
muscle and serum after experimental myocardial infarction (ab.), 973
rate controlled by external stimulator in aortic insufficiency, 498
Hematuria, gross, convulsions, pyuria and possible nephrotic syndrome, 286
Hemodynamic alterations in acute hypertension related to delivery (ab.), 964
Hemoglobin levels, low plasma, method of measuring (ab.), 963

# Subject Index

Hemolytic anemia, acquired chronic lymphocytic leukemia and dysproteinemia, 504
Hemolytic anemias, congenital, inborn errors of metabolism in red cells of, 724
Hemorrhagic disease in osteogenesis imperfecta, 315
Hepatic venous pressure, measured by wedge technic, 341
Hepatitis due to psittacosis virus (ab.), 978
Hepatojugular reflux test (ab.), 962
Hepatojugularometer, apparatus for hepatojugular reflux test (ab.), 962
Hepatomegaly, peripheral neuritis and monocytosis, (CPC), 485
Histiocytosis (CPC), 485
Histiocytosis X, chronic disseminated, with impairment of alveolar-capillary diffusion, 834
Hydrocortisone
  ACTH, cortisone in management of ulcerative colitis, 264
  output of adrenal glands (ab.), 967
Hydrothorax in congestive heart failure, 83
Hyperferricemia with hypochromic anemia, responding to oral crude liver extract, 99
Hyperlipemia, essential, and abdominal crises, 258
Hypernephroma, systemic manifestations of, 791
Hypersomnolent states and normal sleep (ab.), 962
Hypertension,
  acute, hemodynamic alterations in, related to delivery (ab.), 964
  and survival (ab.), 969
  due to segmental infarction of kidney, 303
Hypertrophy of right ventricular outflow tract, 784
Hypophosphatasia, 730
Hypophysectomy, surgical, for diabetic retinopathy (CPC), 949
Hypothermia, effect of, on tissue damage following renal ischemia (ab.), 970

Idiopathic endomyocardial necrosis, 142
Infarction
  atrial, with mural thrombosis, intermittent tricuspid occlusion in, 151
  myocardial, cholesterol studies in (ab.), 975
  of kidney, segmental, hypertension due to, 303
Infarctions, multiple pulmonary (CPC), 132
Infections, severe, in splenectomized infants and children, hazard of, 390
Influenza virus, hemorrhagic encephalitis in chick embryos infected with (ab.), 967
Intrathoracic
  meningocele, 334
  pressure gradient, elevation of (ab.), 968
Iron utilization, in vitro, by human bone marrow (ab.), 975

Jaundice, chlorpromazine, 351

Kidney
  crystal-like deposits in epithelial cells of, 5
  function in unilateral pyelonephritis, 179, 190
  hypertension due to segmental infarction of, 303
Kidneys, cystic disease of (CPC), 286
Klebsiella meningitis, 865

Leprosy, problems of, 337
Letterer-Siwe disease, 636
Leukemia
  acute, and malignant lymphomas, effect of massive prednisone therapy on, 405
  chronic lymphocytic, dysproteinemia and acquired hemolytic anemia, 504
Lipemia, alimentary, and coronary artery disease in two racial groups (ab.), 976
Lipids, serum lipoproteins and glycoproteins in eunuchs and non-castrate men (ab.), 965
Liver, disease of, enlargement of parotid gland in, 367
Loa loa, host-parasite relationship in, 995
Lungs, clinical determination of diffusion capacity in normal subjects and in patients with alveolar-capillary block syndrome, 51
Lymphomas, malignant, and acute leukemia, effect of massive prednisone therapy on, 405

Macroglobulinemia, glycoproteins in serum from patients with, 24
Meningitis, Klebsiella, 865
Meningocele, intrathoracic, 334
Meralluride and acetazolamide in chronic nephritis, failure of renal response to (ab.), 968
Metabolic
  effects of acetic acid analogues of thyroxin and triiodothyronine (ab.), 969
  functions and structure of bone, 123
Metabolism
  calcium and phosphorus, 275
  inborn errors of, in red cells of congenital hemolytic anemias, 724
  steroid, in man (ab.), 967
Metal fume fever, 173
Metaplasia, agnogenic myeloid, natural history and management, 107
Molecular size and transcapillary exchange in human forearm (ab.), 965
Monocytosis (CPC), 485
Mucopolysaccharides, acid, of bovine aorta (ab.), 961
Muscular dystrophy, nutritional, utilization of creatine-phosphate by muscle extracts in (ab.), 963
Mycotic endocarditis, 654
Myeloma, glycoproteins in serum from patients with, 24
Myeloma, multiple, and adult Fanconi syndrome, 5
Myocardial infarction
  cholesterol studies in (ab.), 975
  experimental, changes in enzyme activity in serum and heart muscle after (ab.), 973
Myocardial necrosis, C-reactive protein as index of, 90
Myxedema and cardiac failure (CPC), 653

Necrosis
  idiopathic endomyocardial, 142

Nephrectomy, bilateral, life span of erythrocyte following (ab.), 971
Nephritis
  chronic, failure of renal response to acetazolamide and meralluride in (ab.), 968
  salt-losing, with fixed urinary composition, 158
Nephrotic syndrome
  clinical and histologic spectrum of (ab.), 961
  polycyclic, 297
  possible, pyuria, gross hematuria and convulsions, 286
Nervous system, sympathetic, vascular volume and venous return in relation to cardiovascular integration, 175
Neuritis, peripheral (CPC), 485
Neuromuscular disorders, serum aldolase activity in, 414
Nor-epinephrine and epinephrine, cardiovascular effects in pheochromocytoma (ab.), 976

Occluding thrombus of right atrium, 151
Occlusion
  experimental, of coronary artery (ab.), 977
  intermittent tricuspid, in atrial infarction with mural thrombosis, 151
Olfactory acuity in hypogonadal subjects after androgen and estrogen administration (ab.), 973
Osteogenesis imperfecta, hemorrhagic disease in, 315
Osteomalacia and rickets, 939
Osteoporosis, 797
Ostium primum defects of atrial septum, 593
Oxygen saturation, blood, technic for photographic measurement of (ab.), 967
Oxygenator, bubble-type pump, physiologic observations employing (ab.), 977

Paget's disease, cardiac output in, effect of cortisone, 252
Parathyroid disorders, phosphate clearance in (ab.), 968
Parietal pleura, aspiration biopsy of, 883
Parotid gland, enlargement of, in disease of liver, 367
Penicillin and sulfisoxazole, scarlet fever treated with, 458
Phenylketonuria, pathogenetic problems in, 687
Pheochromocytoma, cardiovascular effects of epinephrine and nor-epinephrine in (ab.), 976
Phosphate clearance in parathyroid disorders (ab.), 968
Phosphorus and calcium metabolism, 275
Plasma
  carbon dioxide tension during recovery from diabetic and diarrheal acidosis (ab.), 978
  hemoglobin levels, low, method of measuring (ab.), 963
  proteins, abnormal, interference with clotting mechanism, 381
Platelets, functional defect of, 315
Pleuropneumonia-like organisms associated with acute hemorrhagic cystitis, 848
Poliomyelitis, electrolyte studies in respiratory paralysis of, 549
Polycyclic nephrotic syndrome, 297
Polycythemia, secondary, and emphysema, effects of venesection on pulmonary and cardiac function in, 74
Porphyria
  acute, with volvulus and gangrene of cecum, 980
  progesterone-induced, 831
Porphyrias as inborn errors of metabolism, 758
Potassium
  cardiac toxicity of, and blood $PCO_2$, relationship between (ab.), 978
  chloride added to diets with toxic levels of sodium chloride (ab.), 969
Prednisone, massive, therapy, effect on acute leukemia and malignant lymphomas, 405
Progesterone-induced porphyria, 831
Prostatitis and urethritis related to acute hemorrhagic cystitis, 848
Proteins, abnormal plasma, interference with clotting mechanism, 381
Psittacosis virus, hepatitis due to (ab.), 978
Pulmonary
  and cardiac function, effects of venesection in emphysema and secondary polycythemia, 74
  and cardiac tissue, distribution of I-131-labelled fat in (ab.), 964
  apparatus, ventilatory functions as indexes of mechanical properties of (ab.), 970
  artery, incomplete transposition of great vessels with biventricular origin of, (Taussig-Bing complex), 234
  compliance in cardiac disease, 516
  disease following ganglionic blockade, 37
  emphysema, chronic, and secondary polycythemia, effects of venesection on pulmonary and cardiac function in, 74
  emphysema simulating brain tumor, 524
  infarction, cor pulmonale and sickle states, 561
  infarction and sickle states, 561
  involvement with chronic disseminated histiocytosis X and impairment of alveolar-capillary diffusion, 834
  multiple, infarctions (CPC), 132
  tuberculosis associated with bronchiectasis, 894
  ventilation in aged, mechanics of (ab.), 972
Pulseless disease, 331
Pump oxygenator, bubble-type, physiologic observations employing (ab.), 977
Purpura (CPC), 485
Pyelonephritis, kidney function in unilateral, 179, 190
Pyrogens, exogenous and endogenous, comparison of (ab.), 972
Pyuria, gross hematuria, convulsions and possible nephrotic syndrome (CPC), 286

Renal
  ischemia, prolonged, effect of hypothermia on tissue damage following (ab.), 970
  response to acetazolamide and meralluride in chronic nephritis, failure of (ab.), 968
Respiratory
  alkalosis due to 2,4-dinitrophenol (ab.), 977
  paralysis of poliomyelitis, 549

Reticulocyte and the direct Coombs' test (ab.), 974
Reticuloendotheliosis (CPC), 485
course and prognosis of, 636
Retinopathy, diabetic, surgical hypophysectomy for (CPC), 949
Rheumatic fever, pathogenesis and therapy of, 422
Rheumatoid aortitis with aortic regurgitation, 580
Rheumatoid arthritis, unusual manifestation of, 580
Rickets and osteomalacia, 939

Sarcoidosis, progress in (E.), 841
Scarlet fever treated with penicillin and sulfisoxazole, 458
Schüller-Christian disease, 636
with pulmonary involvement, 834
Seminar on bone disease
calcium and phosphorus metabolism, 275
course and prognosis of reticuloendotheliosis (eosinophilic granuloma, Schüller-Christian disease and Letterer-Siwe disease), 636
emerging concepts of structure and metabolic functions of bone, 123
osteoporosis, 797
rickets and osteomalacia, 939
survey of bone disease, 469
Septum, atrial, diagnosis of ostium primum defects of, 593
Serum
aldolase activity in neuromuscular disorders, 414
and heart muscle, changes in enzyme activity after experimental myocardial infarction (ab.), 973
lipoproteins, glycoproteins and lipids in eunuchs and non-castrate men (ab.), 965
Shock associated with acute cor pulmonale, origin of, 163
Shunts, cardiovascular, 1
Sickle cell anemia, effects of $O_2$ breathing upon sickling phenomenon in vivo in (ab.), 966
Sickle states and pulmonary infarction, 561
Sleep, normal, and hypersomnolent states (ab.), 962
Sodium chloride, effect of potassium chloride added to diets with toxic levels of (ab.), 969
*Southern Society for Clinical Research*, eleventh annual meeting, January 26, 1957, abstracts of, 961
Spleen, localization of chromium$^{51}$ tagged red cells in, in selection of patients for splenectomy (ab.), 969
Splenectomy, spleen localization of chromium$^{51}$ tagged red cells in selection of patients for (ab.), 969
Staphylococcus septicemia in a large city hospital, 437
Steatorrhea and malabsorptive syndromes, blood carotene in, 373
Steroid
and antibiotic therapy, associated fungus infections, 872
induced decrements in alpha lipoproteins, as measure of androgenicity of oral androgens (ab.), 966
metabolism in man, hydrocortisone output of adrenal glands (ab.), 967
Sterol inhibitors of cholesterol absorption (ab.), 962
Sulfisoxazole and penicillin responses of 609 patients with scarlet fever, 458

Taussig-Bing complex, incomplete transposition of great vessels with biventricular origin of pulmonary artery, 234
Tetracaine, absorption of, from mucous membranes (ab.), 963
Thromboplastin formation, deficient, in man, 624
Thrombus, occluding, of the right atrium, 151
Thyroxin and triiodothyronine, metabolic effects of acetic acid analogues of (ab.), 969
occlusion, intermittent, with mural thrombosis in atrial infarction, 151
stenosis, hemodynamic studies at tricuspid commissurotomy, 306
Triiodothyronine and thyroxin, metabolic effects of acetic acid analogues of (ab.), 969
Tuberculosis
accuracy of confirmatory diagnosis of, 904
pulmonary, associated with bronchiectasis, 894
Tumor
brain, simulated by pulmonary emphysema, 524
cells, crystal-like deposits in, 5

Ulcerative colitis; management of, with ACTH, cortisone, hydrocortisone and related compounds, 264
Urethritis and prostatitis related to acute hemorrhage cystitis, 848
Urine flow, mechanism by which pressure breathing alters (ab.), 971

Valsalva maneuver as test of cardiac function, 197
Vectorcardiographic lead systems, comparison of tetrahedron and cube (ab.), 972
Venesection, effects of, on pulmonary and cardiac function in emphysema and secondary polycythemia, 74
Venography, splenoportal, and hepatic venous catheterization, demonstrating intrahepatic portal obstruction in Wilson's disease (ab.), 975
Ventilatory functions as indexes of mechanical properties of pulmonary apparatus (ab.), 970
Ventricular fibrillation and survival as affected by selected drugs (ab.), 977
Virus
influenza, hemorrhagic encephalitis in chick embryos infected with (ab.), 967
psittacosis, hepatitis due to (ab.), 978
Vitamin B complex deficiency, lesions resembling, and urinary loss of zinc produced by ethylenediamine tetra-acetate, 168
Volvulus, with acute porphyria, and gangrene of cecum, 980

Wilson's disease, 747
intrahepatic portal obstruction in (ab.), 975

AB
